Joe met with Olga Bookas and said that there is a good possibility that some staff and students might be using the UBER taxi services. Uber is claiming to be a 'ride sharing' service. They operate within Connecticut, but are not regulated by any government agency. This means any member of the public who has a car can buy a smart phone, install an app, and start driving the general public. We bring this to your attention to watch out and avoid any situations as they might not be insured and safe to ride in.

Happy Valentine's Day!
