

To: All Incoming and Continuing Graduate Students

From: Allison Insall, Graduate Student Services

RE: University Health Insurance

Health insurance is mandatory for all graduate students at Wesleyan University. University policy dictates that all students maintain health insurance in order to avoid difficult and costly medical situations that could arise, as well as ensure that medical services outside the University Health Center are covered. If you have your own insurance, and elect not to use one of the insurances offered by Wesleyan University, you must submit proof of insurance to our office. Proof of insurance waiver forms are available in our office. Failure to return this form by the end of the drop/add period will result in an administrative decision to enroll that student in the Gallagher/Koster health plan. This one-time charge will be billed to your student account in September. **Pro-rating and refunds are not available.** The policy term is from August 12 through August 11. A detailed summary of benefits can be obtained through the Office of Graduate Student Services.

This year, for the first time, graduate students will be responsible for enrolling themselves online for this plan. The website is: www.gallagherkoster.com. Please confirm all enrollment deadlines with our office.
