CIGNA Vision Plan

We are continuing to use CIGNA for vision exams only.* However, there have been changes to the plan design and administration process. The new vision program through CIGNA allows you to go in or out of network for eye exams.

In Network
In network routine exams are covered at no cost to you. To find in-network provider please:
1. Visit the CIGNA Vision Provider Search
2. Click on: Find a CIGNA Eye Care Professional
Example
- If a routine eye exam takes place with an in network provider, the exam is covered in full and is at no cost to you
- Out of network routine exams will also be covered up to a $75 reimbursement level. You are responsible for any costs in excess of $75 per exam and you will need to submit a claim form to receive the reimbursement. It is always more cost effective and simpler for you to use an in network provider.

Out of Network
If a routine eye exam takes place with an out of network provider, you must:
1. Obtain a bill from your provider or Explanation of Benefits from CIGNA
2. Download a claim form from the Wesleyan HR website (under forms)
3. Submit claim form to address on the form.
Example
- If a routine eye exam takes place with an out-of-network provider and costs $150, you will be reimbursed $75 your out-of-pocket cost is $75.
- If a routine eye exam takes place with an out-of-network provider and costs $70, you will be reimbursed $70.

*Materials including lenses, frames and contacts are not covered under the CIGNA vision program. If you are interested in having an insurance plan to cover the cost of your materials, you may enroll under the voluntary Vision Plan with EyeMed.
