CONCENTRATION WITHIN THE MAJOR _____

Twelve courses are required for the major: six courses must be LAST courses, five courses must be within the student's field of concentration. A course may satisfy more than one requirement, but it still counts as just one credit toward the LAST major. All LAST majors must take LAST 200, LAST/HIST 245, LST/SPAN 226, and a LAST social science course; all majors must satisfy the research requirement. Only one of the two credits for a thesis may count toward the twelve necessary for the major.
