

COMING SOON - ENHANCEMENTS TO STUDENT ACCOUNT MANAGEMENT

At the request of our students, some exciting new system enhancements will be introduced early this summer. These enhancements will provide more convenience and ease for students (and their authorized guests) to manage their education bill.

Working together with Tuition Management Systems (TMS), we have begun to implement their newest technology. It will be integrated with Wesleyan's student accounting system to provide real time updates to your student account, along with up to the minute balance information.

What to Expect:

After logging into your student portfolio, you will have access to a student account center that will offer the following features:

- **Account Summary Data** – available 24/7 with real time updates, including financial aid
- **Account Activity** - also available 24/7 with real time updates, including receipt of payments
- **Statements** – view account statement and options to pay your bill including enroll in a payment plan, or make payment by check, or EFT from a checking or savings account
- **Ability to Share Account Access** – for additional sponsors to assist managing your account
- **Direct Access** – through Wesleyan.afford.com for authorized guest participant(s)

Payment Plans
Payment plans allow for smaller, affordable payments instead of paying your balance in one large lump sum.

One-time payment
Make a payment for some or all of your balance via EFT from a checking or savings account
