To: ____/____/____

Grading Mode: _____ CR/U
_____ A-F

Amount of Credit: _____

Project Title: _____
(limit to 35 characters including spaces)

Faculty Supervisor: _____

Academic Regulations Governing Education in the Field: (1) At the discretion of the appropriate department University course credits may be granted for Education in the Field, up to two credits per semester. (2) Students should not expect to count more than four credits earned through Independent Study and Education in the Field toward the graduation requirement of 32.00 credits.

Students pursuing Education in the Field during the academic year will be charged a special tuition rate if they are not simultaneously enrolled in Wesleyan courses. The special rate per credit is equal to one-tenth of the prevailing tuition rate for a semester. A student who pursues Education in the Field in conjunction with regular courses will be considered a full-time student and will not be charged above the full tuition rate.

Description of Project: Please attach a description of the project. You should describe the nature of the responsibilities and the method by which your activities will be evaluated. You should also indicate the location of the project, name of the on-site supervisor and the amount of remuneration.

Approved by:

Faculty Supervisor _____ Student _____

Department Chairman _____ Dean _____

If you expect to receive credit for this project or related activities through more than one Wesleyan department or program you must specify the following information for the second departmental sponsorship:

Faculty Supervisor _____ Department _____

Department Chairman _____
