Why I chose Wesleyan:

Wes has both the advantages of a small liberal arts school, having a warm and loving community, and a university, with immense opportunities. With its commitment to social action, I knew Wes would challenge me to grow and expand my perspective on all aspects of life. I couldn't be happier to be apart of such a joyful and passionate place!

Academic Interests:

- Double major in Neuroscience and Economics
- Peer Tutor for Introduction to Economics and Elementary Statistics
- Feminist, Gender, and Sexuality Studies

Favorite class at Wes:

My favorite class so far at Wesleyan has been Experimental and Behavior Economics, taught by Professor Jeffrey Naecker. I never thought it would be possible to combine my interests in Neuro and Psychology with Econ, and ever since that class my extremely different passions have found a way to intersect.

Current Classes:

- Organic Chemistry II
- Sensation and Perception
- Macroeconomic Analysis
- Psychology of Conflict Resolution

Why I want to be a tour guide:

I love sharing my passion for Wes, and all that makes it the best second home I could ever imagine. Tour guides always made a huge impact on my perspective of schools, and I want to show why Wesleyan is such an exceptional and tight-knit community.
