### Why I chose Wesleyan:

When visiting Wes, I noticed that conversations started in class didn't stay in class; students engaged in stimulating discourse as in-class conversations bled into lunch. I loved that students at Wes aren't merely 'smart' nor 'artsy;' rather their intellectualism was met with creativity. I've found that, here, my peers are both deeply engrossed in not only their passions but truly value collaboration over competition, which makes Wesleyan an ideal environment for me to flourish!

### Academic Interests:

Science in Society Program, Anthropology, Sociology, Biology, Psychology, History, Neuroscience and Behavior and pre-health.

### Favorite class at Wes:

The 1918 Influenza Pandemic: A Research Seminar with Professor Johnston

### Current Classes:

Principles of Biology II (lecture & lab)  
Foundations of Contemporary Psychology  
Japan and the Atomic Bomb  
Introductory Sociology  
Elementary Statistics

### Why I want to be a tour guide:

I'm eager to be a tour guide because I feel as if Wesleyan has already given me so many incredible experiences and opportunities and I hope to help aid prospective students by sharing what I love with them!
