### **Why I chose Wesleyan:**

In my college search process, I visited over 60 campuses. By the end, I really knew that I wanted a place that celebrated diversity of thought, background, and passions. I also wanted a place that had intelligent, nice, and truly well-rounded people. When I stepped onto Wesleyan's campus I was immediately drawn to all of those aspects and many more. I knew this would be a place that I would be challenged both academically and non-academically, but it would also be a place I could call home.

### **Academic Interests:**

Double major in Government and Economics, with a minor in Data Analysis.

### **Favorite class at Wes:**

The Economics of Vulnerability. (It should have been called the Economics of Climate Change.) This class focused on how the change in sea level rise and prevalence of heavy rain fall affects real estate on the Connecticut Coast Line.

### **Current Classes:**

Introduction to Programming  
Myths, Monsters, Misogyny: Introduction to Greek and Roman Mythology  
Congressional Policy Making  
Econometrics  
Transmission Mechanisms of Monetary Policy

### **Why I want to be a tour guide:**

I want to be a tour guide because Wes has given me so many wonderful opportunities, experiences, and friendships; and I want to share these with prospective students. In addition, I want prospective students to find themselves a home whether it is at Wesleyan or another university. Giving tours allows me to share my own experiences and meet new people along the way.

### **Outside the Classroom:**
