### **Why I chose Wesleyan:**

Wesleyan offers an exciting academic environment where I can explore all the benefits of a liberal arts education while feeling encouraged and supported by my peers and professors. In addition, to being challenged academically I wanted my thoughts, beliefs and perspectives to be tested. With such a diverse student body, I have encountered myself in situations that have made me question myself and ultimately helped me strengthen my voice and grow as an individual.

### **Why I want to be a tour guide:**

I hope to share my personal experiences and give prospective students meaningful insight into the friendly and supportive environment on campus. As a Swiss-American coming from abroad, I am able to address questions and concerns coming from both domestic and international students. Above all, I want to share my enthusiasm about the school and make those on my tours eager to enroll.
