Purpose of International Education Week

This year, Wesleyan University chose to focus on the theme of “Transcending Borders” in order to explore the complexities of “belonging” and how our sense of belonging transcends borders. A border, in this case, can be physical or mental, internal or external, visible or invisible. We asked student groups to submit event ideas that aligned with this theme and matched funding to support their event.

International Education Week (IEW)
November 11-17, 2018, is an opportunity to celebrate the benefits of international education and exchange worldwide. This joint initiative of the U.S. Department of State and the Council on International Education Exchange (CIEE) is part of our efforts to promote programs that prepare Americans for a global environment and attract future leaders from abroad to study, learn, and exchange experiences.
