

## **RADICAL RAPTORS**

### **VOCABULARY**

**Adaptation:** A feature or behavior that helps an animal to survive

**Camouflage:** A color, pattern or shape that helps an animal blend into its environment

**Predator:** An animal that is hunted, caught and eaten by another animal

**Prey:** An animal that hunts, catches and eats another animal

**Raptor:** A bird of prey, such as a hawk, falcon, eagle, owl, or osprey, that catches and kills live prey. Raptors are distinguished by their keen eyesight, strong feet, and curved beaks.

**Talon:** A sharp claw or toenail, especially found on a bird of prey
