Summary of Changes Associated with WFS Maintenance

Note: This highlights only the major cosmetic differences. It is not intended to be a comprehensive list. Any questions can be sent to wfshelp@wesleyan.edu.

1. Upper Right Section of Home Screen

Top right corner on the older version of WFS lists menu items, including “Sign out”:

| Home | Process Monitor | Report Manager | Add to Favorites | Sign out |

The new version of WFS replaces menu options with a House picture for “Home” and a vertical ellipsis:

Clicking the vertical ellipsis will display the menu items that were previously listed horizontally in the older version:

- Add To Homepage
- Add To NavBar
- Add To Favorites
- Process Monitor
- Sign Out
2. Processing Wheel

In some instances, the spinning wheel can now be seen on the center of the screen rather than the upper right corner:

Also note the larger “Add” button above that can be seen on several of the SmartDoc pages.

3. General Appearance

WFS has larger buttons and softer boxes. You can adjust the zoom on your web browser if needed to view more of the screen. All functionality is the same. Below are examples of various screens:

Smart Journal
# Approval Inbox

## Journal Details

<table>
