

New menu style

We've updated how our menus look to make it easier for you to find what you need and work more efficiently. The new menu style creates more on-screen space and the menu options will stay the same so your users don't have a learning curve.

The new menu will have a narrow row of icons which is always visible. Clicking an icon will expand the menu to show the available options below.

The screenshot shows a vertical navigation menu on the left side of a page. The menu items are: Invoices, Enter Invoice, Invoice Order, Inbox, and Orders. The 'Orders' item is highlighted with a blue bar on its left side. To the right of the menu, the text 'Orders' and 'Non-Invoiced Orders' is visible.

The Task menu will be updated to a compact view with Approvals and Tasks on separate tabs.

The screenshot shows a user interface with a blue header bar containing icons for a user profile, a graduation cap, and a notification bell with a red badge showing '107'. Below the header, there are two tabs: 'Tasks' and 'Approvals'. The 'Approvals' tab is active and has a red badge with '107'. The main content area displays a list of four approval items, each with a yellow 'R' icon, a task ID, the name 'Max West', and the amount and date.

Task ID	Name	Amount	Date/Time
