Greetings Wesleyan Colleagues!

Health insurance, health insurance, health insurance.....in addition to a 70 pound standard poodle who is a bed hog.....this is what often keeps me awake at night. Most of my colleagues in our peer schools have the same concerns as I do. How do we provide health insurance that keeps us competitive in our recruitment efforts and helps us retain existing employees? How do we ensure that our program addresses the needs of a diverse population of staff and faculty and complies with ever changing government regulations? How do we provide comprehensive coverage that is affordable for everyone, including the university? What can we do to address the growing complexity of health care and make sure that our employees are getting the care that they need? No small task to be sure, but we are working every day to address each of these priorities.

By now, the enrollment part of Open Enrollment has ended and the benefits staff, along with our colleagues in ITS, are working to ensure that enrollments are processed accurately and that all goes smoothly for the January 1, 2020 effective date. The health plan, along with our slate of other benefits is a top priority for HR and the University. That is why we will be conducting a strategic planning process on benefits this Spring. More to come on that, but in the meantime, please continue to email benefits@wesleyan.edu or contact me directly with any
concerns.

Associate Vice President for Human Resources
