Mission Statement

The Office of Equity & Inclusion provides leadership and accountability to resolve systemic inequities for all members of the Wesleyan community through a metrics-based approach to research, education, and service, by promoting a healthy, thriving campus climate and a community of excellence.

Core Values

We believe an equitable and inclusive education is transformative.
We act courageously, in a transparent manner, with respect for the knowledge and experience of others.
We selflessly serve and live our values together with students, staff, faculty, and other stakeholders to develop and support a community of inclusion.

12:20 Discussion:
1. What are your desires for the office?
2. How do you envision the office supporting you as an individual, your organization, and the overall institution?
3. Please highlight particular resources on campus that have proven to be useful to you and your organization so that others may benefit from them as well
4. How can identity groups better communicate? There is clearly some difficulty in identity groups communicating their programming, so how can we find opportunities to better collaborate?
