Wesleyan Guest Wireless connection procedure.

Windows
Please follow the procedure below for connecting to the Wesleyan Guest Wireless network.

Begin by selecting the Wireless icon in the lower right hand corner of your desktop.

Choose the wes-guest Profile and select Connect

You will then be complete with the first step of connecting to wes-guest
After you have connected to **Wes-Guest**, Open a browser window.

[If you are prompted with a security certificate error page select “Continue to the website (not recommended)”]

You will be re-directed to the page below.
Complete the registration form with the required information, accept the terms of use, then select **Register**

After completing the registration, at the next page, select “**click here to log in**”

At this time, check your mobile device and/or email account for credentials
Welcome New User, your account has been created and is now ready to use.
