

Wesleyan Remembers World War II Collection
Collection 1000-115
Preliminary Inventory

For a Reunion 2002 event that involved all alumni from the war years, Wesleyan's University Relations office initiated a project to collect information about the war experiences of surviving alumni. Coordinated by George Morrill '42 and John Maynard '45, a questionnaire was sent to all alumni identified as participants in the war. The resulting document: *Wesleyan Remembers World War II* was created and distributed.

This collection includes a complete copy of the resulting publication, administrative documentation on the project, and all alumni responses received by University Relations that were edited for publication. This latter group of documents includes correspondence and additional information, including some lengthy unpublished alumni memoirs, that will be of interest to anyone researching the experiences of Wesleyan alumni during World War II, the activity of writing about warfare, and memoir-writing in general.

Box	Contents
1	Final document and administrative file
2	Alumni responses
