

**Preliminary Inventory**  
**Vernet E. Eaton Papers**  
**Collection Number: 1000-243**

Date: 1935-1959

Number of containers: 1 slim Hollinger box

Brief description of collection:

The Vernet E. Eaton Papers contain materials from Wesleyan Professor of Physics Vernet Eaton's teaching career. The collection consists of the transcript of the speeches given on Vernet's reception of the Oersted Award of excellence in physics instruction; scripts for several episodes of a "college TV course" on atomic age physics, in which Professor Eaton appeared; a manuscript on *The Training of College Physics Laboratory Assistants* with an essay by Eaton; and 2 copies of the textbook for Eaton's basic physics laboratory course.
