

Hubert J. O'Gorman Papers (a)  
2001-28  
Preliminary Inventory

5 Paige boxes of subject and research files received from Robert Aseltine, Jr. These documents do not seem to be from Sociology 202 and hence do not fall under the 30 year exclusive access agreement made with Mr. Aseltine. They are notes and preliminary research and drafts for unfinished research projects which were kept by Mr. Aseltine with the intent of turning them into a posthumous or joint publication. The bulk concern a book-length monograph on the concept of pluralistic ignorance. cf. book proposal in Box 1.

Also included in accession are two boxes of books which have been sorted and dispersed. List follows on separate sheet.
