Please answer the following questions on a separate sheet of paper. Please limit your responses to a maximum of one-page (typed and double-spaced) per question. Do not forget to include your name, Wes Box, Wes ID and Wes Phone number on all your materials.

1. What contributions could you, as an individual, make to the SJB?

2. Based on your critical review of the CNAC, what changes would you recommend? What parts of the Code seem most important? Least important?

Please read the scenario on the following page and respond to the questions at the end:

A group of students is in a room in a residence hall listening to music and talking. The Resident Advisor on duty notices the smell of marijuana in the hall outside of the room and knocks on the door. The RA hears shuffling around the room but nobody answers the door. The RA decides to call Public Safety.

Upon arrival, the Public Safety Officer notes the same smell and knocks on the door. When the door is opened, the same smell is present but the students inside deny smoking marijuana and are not observed with any marijuana or paraphernalia.
At the hearing, the students continue to deny the use of marijuana, but offer no explanation for the smell present in the hall and the room.

3. Based on the scenario above, what are the issues you can identify that should be addressed through a judicial process?

4. Based on the scenario above, if you were a member of the SJB, what opinions would you share about the most effective and comprehensive resolution to a judicial hearing?

Finally, have you ever been found in violation of the Code of Non-Academic Conduct? Answering yes does not disqualify you as a candidate.

   Yes   No

If yes, please elaborate.
