Wesleyan Summer Session is an intensive learning experience:

- 13-week course in less than 5 weeks
- Very small classes
- Close relationships with faculty and students
- Immersive study and concentrated focus

Wesleyan is renowned for its exceptional faculty and “small liberal arts college” experience. Summer Session, with its very small classes and compressed schedule, is Wesleyan concentrated.

To round out this academic experience, Wesleyan Summer Session will offer activities outside the classroom, such as picnics, performances, and movies for summer students.

Join former Summer Session students and program staff to learn more.
