PATIENT ASSURANCE PROGRAM

Cigna’s Patient Assurance Program helps lower your out-of-pocket medication costs. There’s nothing to join and no cost to participate – it’s part of your Cigna pharmacy benefit.

• Managing diabetes isn’t easy, but a new program that controls the cost of eligible insulin products makes it more affordable. A 30-day (or one month) supply costs no more than $25, and a 90-day (or three month) supply costs no more than $75.

• Eligible customers can use the program by showing their Cigna ID card at the pharmacy when they fill one of the covered insulin products. If you’re already using one of the covered insulins, there are no additional steps needed. You can take advantage of this program.

• Basaglar, Humalog, Humulin, Levemir are example of covered medications. Additional insulin products may be included in the program. If you’re currently taking an insulin that is not included in the program, talk with your doctor about whether taking an insulin covered under the program is right for you.
