Dear Students,

As you prepare to return to campus - we hope you all had a restful Thanksgiving break. We are entering the home stretch of the semester and we intend to finish safely.

To that end, we have a few safety reminders and are asking for your cooperation:

- We recommend that you take a rapid COVID 19 test before you return to campus if possible. If you test positive, delay your return and contact Davison Health Center.

- Please make sure to get a COVID test at Beckham Hall twice this week (Monday and Thursday OR Tuesday and Friday). Testing will be available in Beckham Hall from 7:30 am to 4:30 pm each day (Testing will be CLOSED the next two WEDNESDAYS).

- For this week ahead, PLEASE be diligent in wearing masks everywhere inside except in your own personal campus residence. This is very important as we have two weeks before final exams and we know that many members of our community travelled and visited with family and friends. As we conduct the first two rounds of tests on campus, we need your cooperation in preventing the spread of COVID.

- Avoid gatherings whenever possible.

- Get a booster shot as soon as you are able. There are a limited number of COVID-19 booster shots available through the clinics in Beckham Hall on Wednesday, December 1 from 11 am to 5 pm and on Wednesday, December 8 from 11 am to 5 pm for students. You must sign up through the links above for the available slots each day. If you have already gotten your booster, please upload your record here.

If we find that the positivity rate continues to rise, we will consider making adjustments to campus protocols, including the possibility of limiting social gatherings on campus.

Please consult the Keep Wes Safe website for information about our safety protocols.

Through our collective effort, we can limit spread of the virus, and protect the entire Wesleyan community.

Sincerely,

Rick Culliton,
Dean of Students and
Chair Pandemic Planning Committee
